PRODUCT DESCRIPTIONS

Top balancer Virtual Items are listed in order below along with their respective dR values and detailed product descriptions.

NF - Calm Day CALM DAY

This formula is designed to support the neurotransmitters dopamine and serotonin, with the potential to improve problems with sleep and anxiety.*

Neurotransmitters are natural messengers in the nervous system that send signals from one nerve cell across a synapse to another nerve cell or target organ. Serotonin plays a role in sleep, mood, intestinal function, pain control, and inflammation. Dopamine plays a role in cognitive function, memory, learning, and pleasure. In our bodies, dopamine is released as a result of rewarding experiences. Certain nutrients and amino acids may help to balance levels of neurotransmitters by providing co-factors that assist in the body's ability to manufacture neurotransmitters.*

NF - Women's Complete

Women's Complete is the New Frontier in Multivitamins uniquely formulated for women of all ages, from menstruation, conception and pregnancy through menopause. This new women's wellness complex is a high-quality multivitamin-mineral supplement that includes bioavailable ingredients in nutritionally meaningful amounts. Women's Complete contains activated vitamins, chelated minerals and the best form of specialty ingredients including DMG, inositol and super foods, along with a unique, proprietary probiotic complex. This formula was created to enhance all facets of women's health, including heart, reproductive, GI and musculoskeletal health as well as skin, hair and nail care. Comprised of Patented, Researched and Trademarked ingredients, Women's Complete is an easy to swallow vegetarian capsule that is also easy for your body to absorb.

NF - Best Whey Protein (Vanilla)

Whey protein is a naturally complete protein that provides essential and non essential amino acids to support healing, muscle building, muscle and tissue recovery, energy and the immune system.
